DATABASE APPLICATIONS

STATEMENT

I am a developer and a designer with a 7+ years of experience in creating user experience designs, mockups, high-fidelity prototypes, and working user interface application. I am also taking a path on backend stuff to have a grasp to build application from both ends.

EXPERIENCE

SENIOR WEB DEVELOPER

Sulzer Inc. / September 2022 – September 2023 • 1 year

Development responsibilities that I hold:

- WordPress Theme
- Gutenberg Blocks
- PHP backend
- Different email provider theme development (Mailchimp, Pardot, HubSpot, etc)
- Maintenance of existing websites.

SENIOR WEB ENGINEER AND DESIGNER

Taxumo / August 2017 – May 2023 • 6 years+

I am responsible for the following:

- user interface design
- database management
- feature development
- RESTful APIs development
- C# backend

Responsible also for the maintenance of web application of Taxumo. I make sure that they have their user has the best experience on overall usability of the app.

FREELANCE WEB DEVELOPER AND DESIGNER

Freelance / August 2016 – Present • 7 years+

I do some freelance projects from various clients in my spare time mostly after my morning shift job. I do some UI designs, mockups, high-fidelity prototypes, web application developments, and WordPress.

FREELANCE WORDPRESS DEVELOPER

Tribe Limited / April 2017 – August 2017 • 5mos

I engage to a wordpress website development contract to this company. I also perform periodic maintenance to which is availed as another contract after the project development.
